

Wisconsin Department of Veterans Affairs

Tony Evers, Governor | Mary M. Kolar, Secretary

December 14, 2021

Dear King Members, Friends, and Family:

Today is the one-year anniversary since the first COVID-19 vaccine was administered in Wisconsin. Millions of people in our state have rolled up their sleeves to protect our communities and help stop the spread of the virus. Thank you if you are among them!

Since we updated you on December 9, we have had 2 employees test positive for COVID-19. Currently, we have 3 cases of COVID-19 on campus (1 member, 2 employees).

Remember, the best way we can help prevent the spread of the virus is by getting vaccinated. If you haven't already and are able, please get vaccinated. If your loved one living at King is not vaccinated, please encourage them to do so. Boosters are now available to everyone 18 years old or older. These vaccinations save lives.

Finally, if you are feeling sick, get tested. Whether you have COVID-19, the flu, or something else, a proper diagnosis gets you treatment faster and protects everyone around you.

Thank you for your commitment to our health and safety.

Sincerely,

A handwritten signature in black ink that reads 'T. Servatius'.

Tammy Servatius, Commandant
